Specialist Consultants

Miss Poonam Pradhan
Consultant Gynaecologist

Miss Pradhan is an expert in gynaecology and gynaecological ultrasound. She diagnoses – fibroids, endometriosis, ovarian cancer, uterine cancer, infertility, early pregnancy problems, Polycystic Ovarian Syndrome, endometrial polyps, recurring miscarriages, and menopause. Miss Pradhan also offers fertility investigations – scans and tubal patency.

Mrs Afshan Khaja
Consultant in Urogynaecology

Mrs Khaja is a Consultant Gynaecologist who specialises in the diagnosis and treatment of urogynaecology, specifically – urinary incontinence with the latest diagnostics, test and treatments. Options that can be discussed at your consultation include – lifestyle changes, conservative management, medical management or surgical management.

Miss Hannah Church
Sexual Health Consultant

Miss Church specialises in sexual health diseases, psychosexual issues and erectile dysfunction. These can include the testing and treating of sexually transmitted diseases (STDs) ie HIV, syphilis, gonorrhoea, herpes, chlamydia, Hepatitis B, Hepatitis C. She also sees patients with concerns over recurrent vaginal infections, genital viral infections, genital dermatosis and anal warts.

Dr Kulsum Jaffer
Consultant Gynaecologist &
Contraception Specialist

Dr Jaffer is a specialist in all methods of contraception to include the fitting and removal of hormonal and non-hormonal coils and contraceptive implants, contraceptive injections and oral contraceptive pills. Dr Jaffer also offers cervical smears and sexual health testing.

Miss Swati More
Consultant Gynaecologist
and Fertility Specialist

Miss More offers consultations for the following conditions – primary infertility, secondary infertility, menstrual abnormalities, premature ovarian failure, recurring miscarriage, psychosexual issues. Miss More can initiate fertility investigations such as HyCosy – tubal patency checking, pathology and ultrasound scans before treating the fertility matter appropriately.

Mr Seni Mylvaganam
Consultant Breast Surgeon

Mr Mylvaganam specialises in the assessment of breast conditions including lumps, skin changes, pain, discharge etc. He offers a consultation and examination and will discuss with you any further assessments that may be required, which could include a breast ultrasound. If an ultrasound identifies an area of uncertainty, it is likely a core biopsy would be recommended to confirm any diagnosis.

Miss Maria Carillo
Breast Radiologist

Miss Carillo offers breast ultrasound scanning, fine needle biopsy and core biopsy and works closely with Mr Seni Mylvaganam to provide breast reassurance to those ladies who are appropriate for ultrasound as opposed to Mammogram as a diagnostic. Miss Carillo will explain her findings to the patient and provide a report to Mr Mylvaganam.

Mr Anoop Rehal
Consultant in Fetal Medicine

Mr Anoop Rehal, Consultant in Fetal Medicine offers detailed ultrasound to patients from 11 weeks onwards, including 2nd opinions for patients with concerns regarding their baby/ pregnancy or a previous pregnancy. He also offers private antenatal care and delivery to those who prefer to have Consultant led continuity of care and a private birth. Mr Rehal also offers invasive testing -CVS and amniocentesis.

Mr Aamod Nawathe
Consultant in Fetal Medicine

Mr Nawathe offers ultrasound scanning to patients beyond 11 weeks, 2nd opinions and 4D Scans. He offers growth and well being, reassurance, gender, nuchal, NIPT and anomaly scans. His special interest is high-risk obstetrics and managing medical disorders in pregnancy. He works locally in the NHS and at MUMS.

Dr Vijay Iyer
Consultant Paediatrician

Dr Iyer offers a wealth of private paediatric services enabling rapid access for children, without the need for a GP referral. Dr Iyer is a general paediatrician with a special interest in paediatric gastroenterology, hepatology and nutrition. He can help to advise and treat children with – diarrhoea, constipation, blood in stool, vomiting, abdominal pain, faltering growth, irritable bowel syndrome, eosinophilic gut disease, coeliac disease, jaundice, anaemia, reflux, inflammatory bowel disease, food allergies and intolerances.

Mr Ashish Chikermane
Paediatric Cardiologist
